Inspection of apartments in connection with attics and cat vents 1/12 and 2/12

The board of Brf Bergshamra in Solna is reviewing how we can make our properties more energy efficient in preparation for future energy requirements. In step one, the board has decided that we will insulate attics and cat vents. An inspection of all apartments in contact with attics and cat vents will be carried out by the association's hired inspector Thomas Wiklund from the Inspection Group. It is of utmost importance that the inspector has access to your apartments on the specified days. Read more on our [web page](#).
