The board has decided to replace the lighting in the basements to be motion-activated. However, this will not happen until 2027.

Waste management

The City of Solna has revised waste regulations and invites all Solna residents to consultation on these. On 2 September, the Technical Committee decided to go out for consultation for four weeks with proposals for new waste regulations. The proposal means that the city's regulations will be adapted to new legislation in the waste area. <https://www.solna.se/bygga-bo--miljo/avfall-och-atervinning/avfallstaxa-avfallsplan-och-avfallsforeskrifter>

The water shut-off

Unfortunately, the association was not aware that Solna City would shut off the water on Wednesday. In addition, Solna City informed very late and it also had the wrong date. We must hope that the association in the future will be informed in time about events that affect our members.
